Hyperinternet

what is hyperhybridism?

- I n t e r n e t -

And 800 minutes of Post-Vaporwave
contemplation //

The failure of Hegelianism and Post-
Internet e s o t e r i s m //

On the edge of this haunted Internet //

The movement of indie *bedroom pop*
artists //

Self-proclaimed synthpop and lo-fi
messiahs //

The unconscious return of psychic
automatism in contemporary arts //

Pretentiously and magnificently labeled as
supermodern arts //

The perception of moral decadence in the
cultural establishment //

Imbued with Derridean
deconstructivism //

Linguistic and semiotic suicide //

Saturated aesthetics and the postmodern
decadence of Western literature //

The escape from materialism through
posthuman thought //
Breaking rationality through semantic
superficiality //
The last breath of this intellectuality
that, with pharaonic pretension,
threatens the collective unconscious with
its most innovative weapon of
massification: //
The *Hyperinternetwave*.
